

Process Education CONFERENCE 2020

June 25 – 28 St. Louis College of Pharmacy, St. Louis, MO

Call for Proposals

The 2020 PE Conference seeks to illustrate how Process Education principles, practices, and tools can be used to create conditions for vibrant learning environments that more deeply engage students, faculty, and staff. Learning Environments beyond the traditional classroom, such as corporate training and educational professional development, are all encouraged. It is our goal for conference participants to experience this kind of positive environment for accelerating learning and growth. Come join us!

To See Growth, Inspire Learners:

Creating **inspired** Learning Environments

CONFERENCE THREADS

- **Plenary Sessions** There will be two keynote sessions where educational leaders will share their visions, innovations, and outcomes. There will be two expert panels where featured guests will share expertise on institution-level and national programs.
- **Hall of Innovation** There will be a poster session where attendees are invited to share classroom practices that have to do with creating quality learning environments for personal and community growth
- **Professional Development Workshops, Research Workshops, Paper Sessions, and Symposiums** There will be multiple breakout sessions that explore and disseminate best practices in teaching/learning, educational research, and sharing experience/expertise related to the conference theme
- **Online Sessions** There will be a continuous track of programming available for distance participants

We're ready for you! Visit the conference site to learn what your proposal should include and how to submit it today!

(Proposal deadline: Dec. 15)
